Define Education

11 Answers

Learning something new

Anything that teaches you something

Creating understanding

Expanding your body of knowledge

Imparting or seeking out new knowledge

Learning something new

Raising the understanding and often the interest of an individual as it pertains to a particular subject.

Instruction in something

Education is the synthesis of new knowledge with existing knowledge applied in new contexts.

Define Education

11 Answers

Communicating information for learning

Provide knowledge on specific subjects
and how to apply it

THREE WORLDS. SO FAR APART!

What is the common goal of K12, higher education, and corporate education?

Answers

Mentimeter

Getting people to learn something

To share knowledge

To prepare learners to perform at their best

Impart new knowledge or skills

Helping people gain knowledge or skills

Learning!

getting them to DO something with their knowledge

Provide knowledge, skill set... and facilitate learning and transfer of learning

Learning new things. Growth

What is the common goal of K12, higher education, and corporate education?

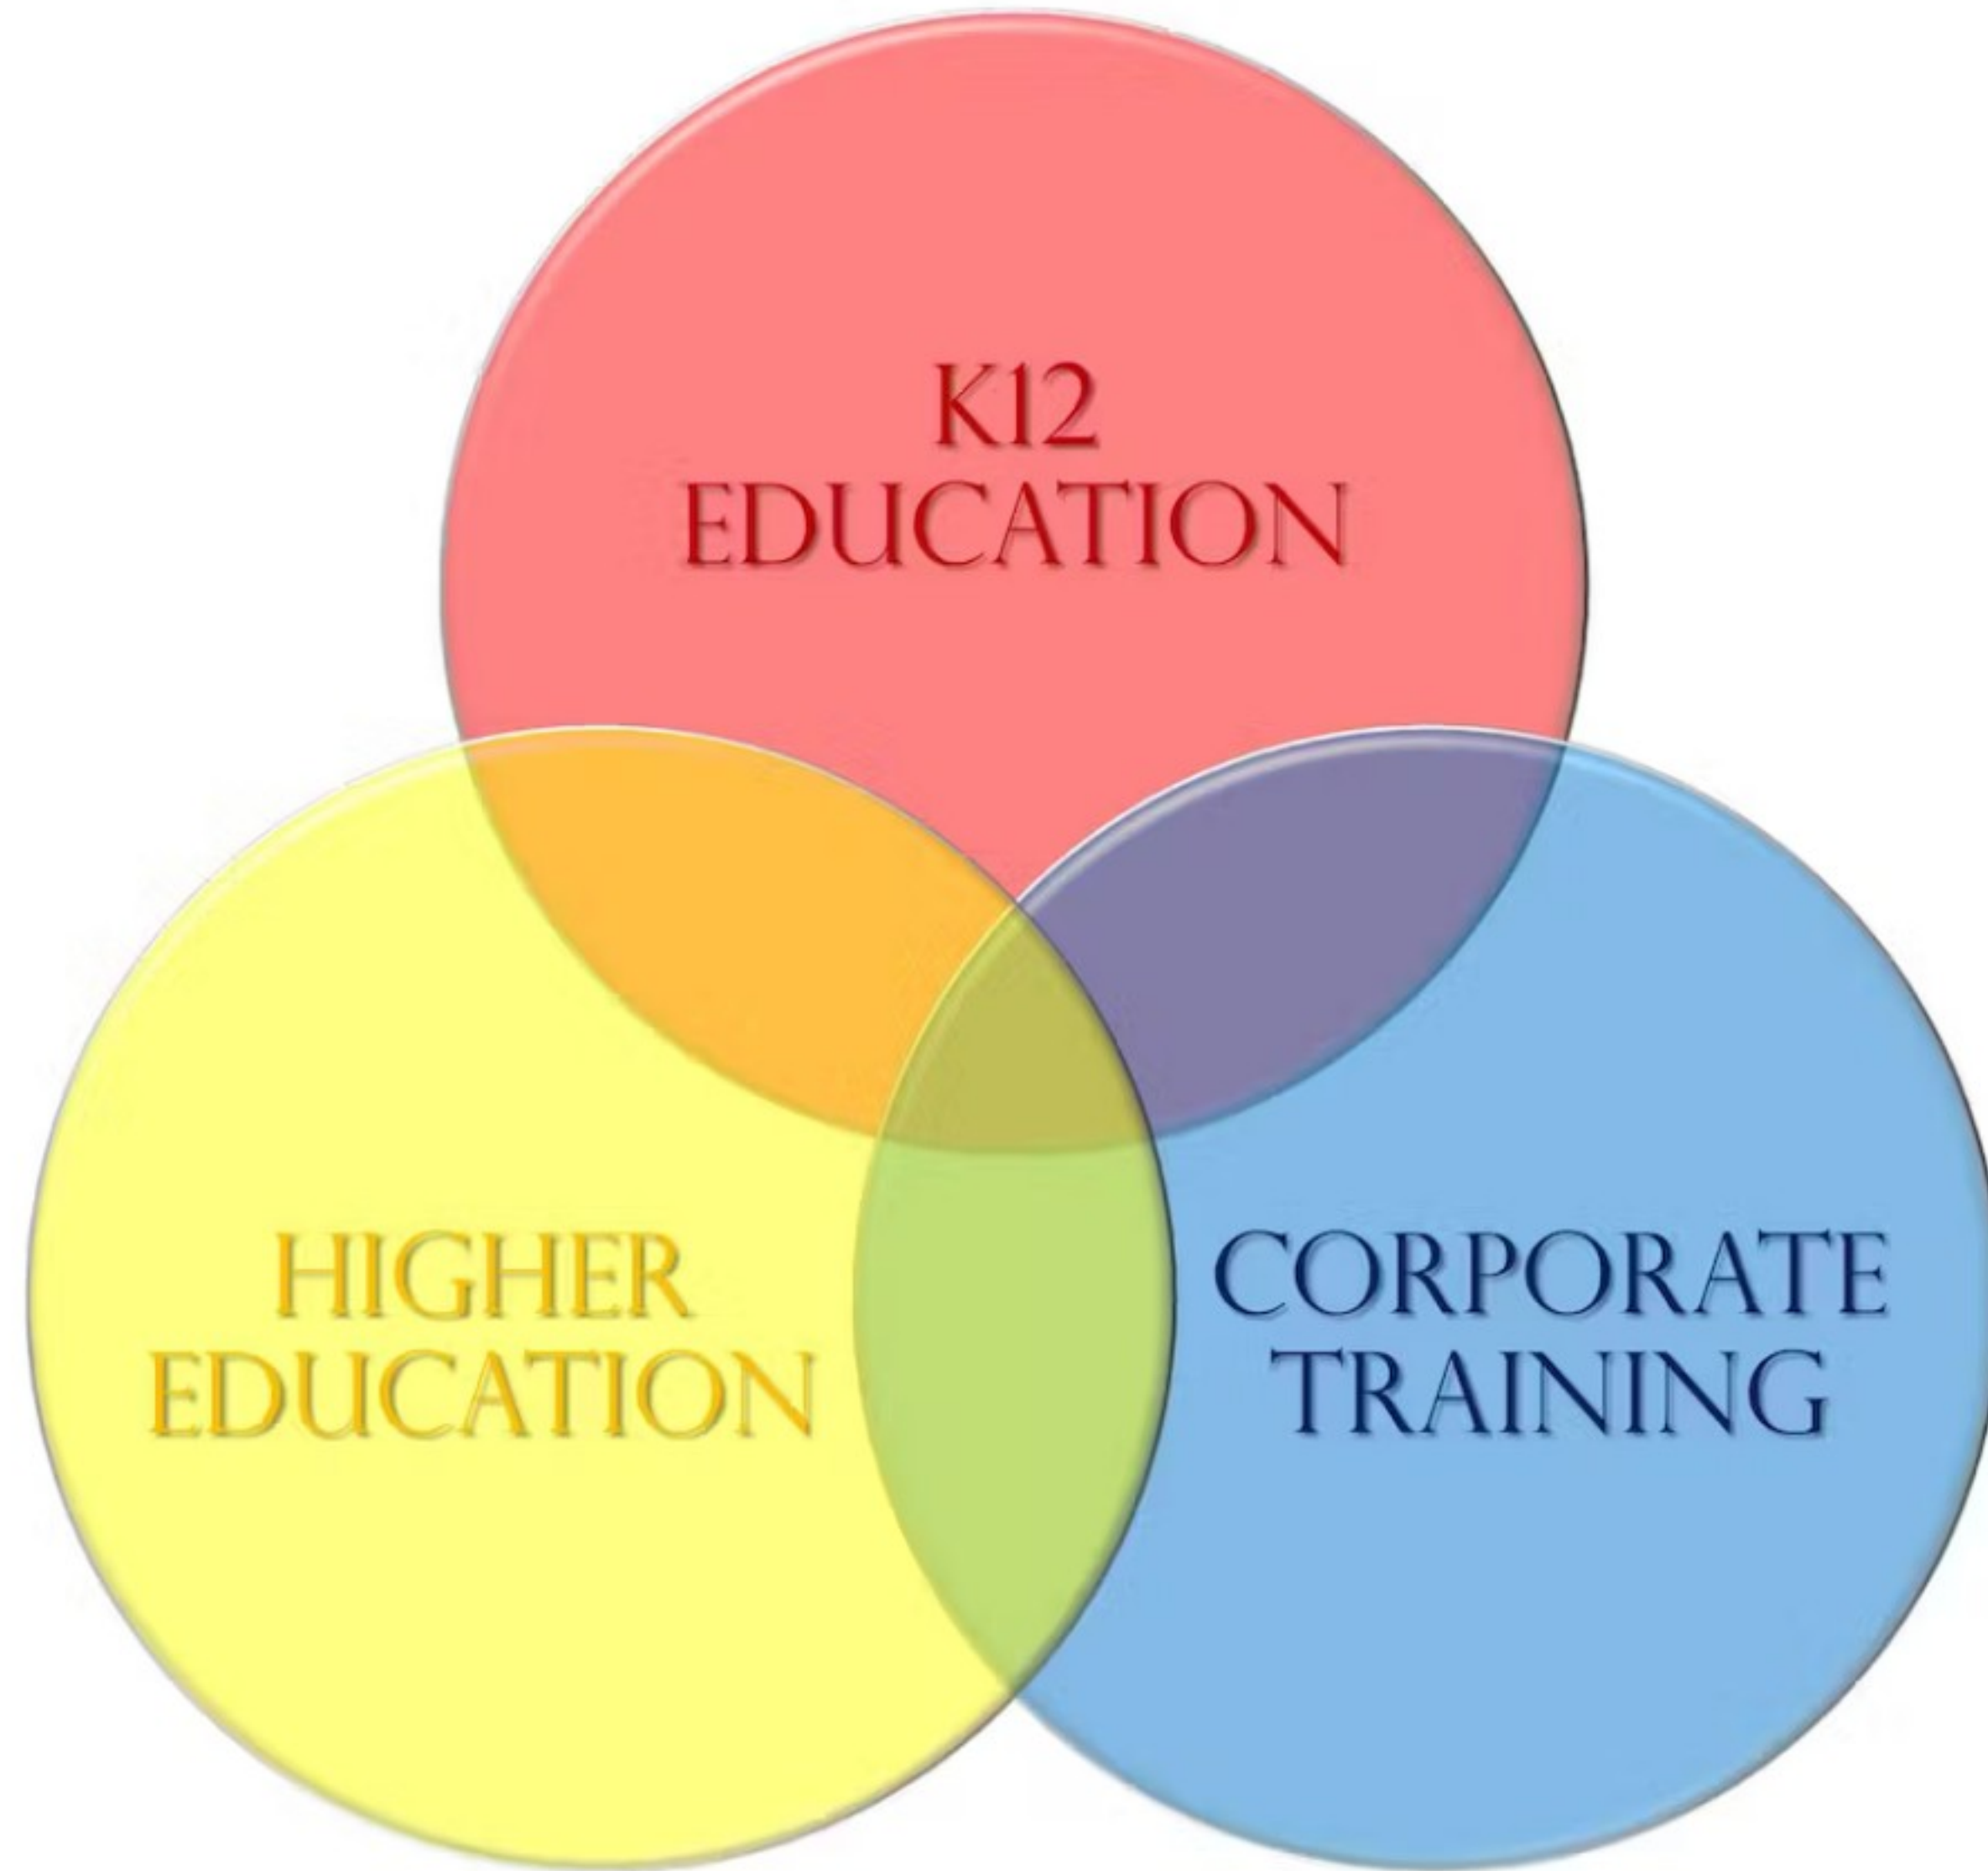

11 Answers

Mentimeter

Expansion of understanding and development of interest

Teach new skills and how to apply them

WHAT IS THE COMMON GOAL?

WHAT IS THE DIFFERENCE BETWEEN EDUCATION AND TRAINING?

Work with your table to decide then post your answer.

What is the difference between education and training?

10 Answers

Ed - more holistic, Training - more targeted

Nothing 🧑

Difference is that education can be more universally applied where training is more singular in nature.

There is an expectation of execution when training has been provided. Education is preparation for the future.

Education teaches the knowledge you need and training teaches the performance of doing it

Education is more encompassing, like learning how to critically think. Training is more focused on a process or practice or skill.

Education is teaching students new topics and skills, training is building upon the already acquired skills to optimize performance.

I feel like I received an education in how training is different and I appreciated it.

Shouldn't be different. Both should focus on teaching how to think and what questions to ask.

- 5 Practice Activities
- 6 Project Based Learning
- 7 Problem Based Learning
- 8 Reading
- 9 Self Directed Learning

How do adults learn?

Corporate Training

Webinars

Classroom

On the job

eLearning

Content Library

Short term, skill specific courses | Regulatory training | Limited curricular planning

How is it working with adults?

Comparing the Paradigms

	K12	Higher Ed	Corporate
Students	5-18 yr olds	18-25, plus returning adults	Adults
Teacher	Generalists, specialized by age or topic in high school	Specialists	Generalist trainers or subject matter experts
Curriculum	Dictated by standards from the local or state board	Established by curriculum committee and professors	Built from needs of the business or dictated by regulatory needs
Arrangement	One to many	One to many	One to many, 1-1 coaching, computer to learner
Assessments	Quizzes, tests, observations, standardized tests	Tests, exams, quizzes, labs, observation	Often nothing – check the box, knowledge questions, sometimes competency assessments
Span of Control	Teacher chooses how to present material and run classroom	Professor determines material and how to present and pace it	SME and ID design, trainer presents, or elearning is assigned
